Tom asked if I was feeding Anna, he then seemed to get really upset with me when Anna kept getting distracted from eating her food, ultimately, Anna picked up a painting and Tom got very very upset with me, becoming very controlling. When Jennifer tried to help keep Anna on track Tom seemed to say something passive aggressive towards me like "maybe yiwei can learn how to back me up".. Or something like that.

I felt the whole thing was putting Anna in the middle again, also, they're seemed to come from Tom a really intense anger and aggression.
